Risk Disclosure

This website has been produced by Finance Managers Co. Limited which is authorised and regulated by the Vanuatu Financial Services Commission [Registration No. 14745].

Warning: demo platform

The virtual funds available via your demo platform allow you to familiarise yourself with our trading platforms, and any gains or losses incurred while trading in a demo environment are not suggestive of results you may achieve when trading on a live platform. Access to your demo platform is only valid for 30 days, which will be terminated thereafter, however you will be able to trade in a live environment once your account has been opened and funded.

Warning: internet trading risks

There are risks associated with using an internet trading system. These include, but are not limited to: error in hardware, software, internet connection or any force majeure (i.e. flood; extraordinary weather condition; earthquake, or other act of God; fire; war; insurrection; riot; labour dispute; accident; action of government; communications or power failure; or equipment or software malfunction). Finance Managers Co. Limited cannot control the signal power, its reception or routing via internet, configuration of your equipment or reliability of its connection. Therefore, we cannot be responsible for any communication failure, distortion or delay (although we will attempt to minimise the possibility of system failure). Please call us immediately if you are unable to access your account and we will execute your orders over the phone. Please note for security reasons you will need to go through our identification process before we accept any orders from you. If we are unable to identify you we will not be able to carry out your orders.

Warning: risks of margin trading

Trading in foreign exchange and bullion, particularly margin trading, involves the potential for profit as well as the risk of loss. This may vastly exceed the amount of money you commit to any trade or transaction. Movements in the price of foreign exchange or bullion rates are influenced by a variety of factors of global origin, many of which are unpredictable. Violent movements in the price of foreign exchange or bullion rates may result in action by the market. As a result you may be unable to settle adverse trades. Our staff is unable to guarantee the accuracy of any market predictions (should they offer such predictions) and cannot guarantee a maximum loss that you may suffer.
